DataMax® LSZH Dual Rated (CM-LS) Mini Patch 28 AWG

DataMax® Mini 28 AWG patch cables are now available with a Low Smoke Zero Halogen Dual Rating. Available in a Cat 6 UTP and Cat 6a F/UTP these cables feature a reduced diameter profile and a CM-LS rating, making them ideal for patching and top of rack applications. These smaller, more flexible designs improve cable density and provides less cross sectional area promoting increased air flow to maximize rack ventilation. TIA compliant per 568.2-D standard published September 2018, refer to charts below for plug-to-plug electrical and transmission parameters.
